Destination Monash

Destination Monash features lots of information to help students succeed in their final years of high school - whether they intend to study at Monash or not.

Visit Destination Monash to:
- bookmark important dates, like the UMAT
- register for Monash events, like Open Day and our At Monash seminar series
- get study tips and wellbeing advice to help students throughout their VCE
- learn about university courses and future study options
- discover all the different career paths available.

Students, teachers and parents can sign up to stay in touch with the monthly Destination Monash newsletter. Visit www.destination.monash

Open Day

Open Day is a chance for your students to speak to Monash staff and current students about courses and university life. This is also an opportunity to see the campuses, facilities, clubs, support services on campus accommodation and get a feel for life at Monash.

Saturday, 2 August 10am – 4pm
Berwick and Peninsula campuses

Sunday 3, August 10am – 4pm
Caulfield and Clayton campuses

Parkville campus will have an Open House on Sunday 17 August.

For more information, visit the Open Day website http://destination.monash/open-day

Brilliant begins now
Monash Information Evenings

Monash is running a number of regional information evenings for students and parents.

Each evening covers:
- The VTAC application and selection process
- Course offerings
- Scholarships and fees
- SEAS and the Monash Guarantee
- Accommodation.

For more information and to register, please visit www.monash.edu/information-evening

Upcoming events

At Monash Seminar Series

The At Monash Seminar Series provides an opportunity for students, parents and secondary school teachers to gain an insight into courses and careers in a broad range of fields across the faculties and campuses of Monash University.

Each seminar is unique to the faculty or discipline but all will include an overview of the area, current student and graduate perspectives and ample time to pick up course information and ask individual questions of the speakers and faculty representatives.

Year 10 Independence Day

Students have the chance to explore their future study options at Year 10 Independence Day.

Throughout the day, students will participate in fun and interactive sessions aimed at investigating current passions and discovering new interests, as well as building skills that can assist in the successful navigation of the senior years of secondary school.

Date: Thursday, 3 July
Time: 11am – 3.30pm (light lunch provided)
Location: Clayton campus

Places are strictly limited. For more information about the day and to register, visit: monash.edu/year10-day

Year 11 Inspiration Day

Students looking for that spark of motivation are invited to attend Year 11 Inspiration Day.

Taking place at Monash Caulfield, students will experience a global university campus, and discover how the course they choose can make a difference to their life – and the lives of others.

Date: Wednesday, 9 July
Time: 11am – 3.30pm (light lunch provided)
Location: Caulfield campus

Places are limited. For more information about the day and to register, visit: monash.edu/year10-day
**Education**

**Faculty of Education High Achievers Evening**

The Faculty of Education recently celebrated the achievements of 36 high-achieving VCE students who achieved an ATAR of 90 and above, and commenced an undergraduate education course in Semester 1, 2014. The students and their families celebrated their achievements with Professor John Loughran (Dean, Faculty of Education) on Thursday, 1 May at the Faculty of Education High Achievers Evening.

The evening also included two guest speakers – fourth year education student Julia Robertson, and second year education student Jimmy Rizos. Both Julia and Jimmy are high achieving students, so it was great for first year students to hear such positive and inspiring stories about their education studies and school placement experiences.

Aidan Stewart attended the evening. He received an ATAR above 90 in 2013 and is now studying the Bachelor of Education (Special Education) at Berwick. “I have a passion for working with children and providing additional care for those who need it in their development as students”, Aidan explained. Aidan continued about his experiences in the Faculty of Education. “I have found the Faculty of Education to be supportive during my transition into university life and experienced in the knowledge and skills being passed onto myself and my peers”.

The Faculty of Education at Monash is looking forward to welcoming students in 2015 into the new Bachelor of Education (Honours) course. Information about the course can be viewed at [monash.edu/education](http://monash.edu/education)

**Professional Development for teachers**

The Faculty of Education Dean’s Lecture Series links the broader community with thought leaders and internationally renowned experts. It includes a series of thought-provoking lectures that discuss and debate key issues in education.

The Dean’s Lecture Series is a free event and open to the public. Complimentary light refreshments will be served from 6pm and the lectures commence at 6:30pm. Register your interest to attend at [monash.edu/education/events/deans-lecture-series/](http://monash.edu/education/events/deans-lecture-series/)

*“Letter of attendance for professional development purposes can be provided upon request”*

**Upcoming lectures**

**Health and Physical Education and the Australian Curriculum: Full of holes; Full of potential?**

– Professor Dawn Penney

Tuesday, 24 June

Building A, Level 4, Room A4.41

Peninsula campus

**Progressive Sexuality Education: The Conceits of Secularism**

– Associate Professor Mary Rasmussen

Tuesday, 26 August

Building 6, Level 1, Room 173

Clayton campus

**Science**

**Monash Science Stories**

Monash Science is home to teaching and research at the forefront of its field – the work of its people changes lives, shapes our conversations and provides new ways to view and understand our world. Their work – exploring the ways atoms behave, understanding the inside of stars, conserving waterways, cultivating cures for disease, studying behaviour – doesn’t just take place in a lab or the class room.

Monash Science Stories is a digital platform devoted to portraying via words and video, the rich tapestry of human stories that form the heart of the Monash University Science community.

If your students love discovery and asking questions they may be interested to find out more about where a science degree from Monash could take them. New stories will be added to this site throughout the year.

Please visit [monash.edu/science-stories](http://monash.edu/science-stories)

**Pharmacy and Pharmaceutical Science**

**Parkville campus Open House**

The Parkville campus (home to the Faculty of Pharmacy and Pharmaceutical Sciences) will hold an ‘Open House’ on Sunday, 17 August from 10am – 3pm. Pharmacy and Pharmaceutical Sciences will also be represented on Open Day at the Clayton campus on Sunday, 3 August.

Students and their parents can discover our courses, tour the facilities, meet staff and students, speak to ground-breaking researchers and join in on the fun activities from the number-one ranked university for pharmacy in the Asia Pacific region.

For more information, visit [monash.edu/pharm/openhouse](http://monash.edu/pharm/openhouse) or call 03 9903 9594.
**Business and Economics**

**Bachelor of Business Administration**
A degree in business administration gives students the skills needed to operate effectively in business environments.

The Bachelor of Business Administration at Monash offers the opportunity to gain a business qualification from a world-class university, without the required Year 12 maths prerequisites of other business courses.

**Majors**
As part of the program, students are given the opportunity to study an extended major in one of three key business areas, giving them additional knowledge in their chosen field of specialisation. Available majors include accounting, finance and economics, or marketing. These majors have been selected for their strong employment outcomes for graduates. So whether students plan to manage their own projects, run their own business, or work in a large corporation, the Bachelor of Business Administration provides a solid grounding in all aspects of business management and strategy.

Students in this program experience the same benefits as other Monash business students, including internships, overseas study options and access to excellent facilities and teaching staff.

Visit [buseco.monash.edu.au/undergraduate](http://buseco.monash.edu.au/undergraduate) for more information or call Sandra Laurence on 03 9904 7095 or email sandra.laurence@monash.edu

**Concrete – showing at Monash University Museum of Art (MUMA)**

*Concrete: a solid state, a construction material, something which is known or true.*

MUMA’s second exhibition for 2014, *Concrete* brings together the work of sixteen artists, both Australian and international. The exhibition explores the concrete, or the solid and its counter: change, the flow of time. As we prepare to mark the centenary of the First World War, the exhibition considers the impact of time upon built and monumental form, reading between materiality and emotion, form and memory.

Monuments reflect a desire for commemoration, truth, honour and justice. Equally, they may function to consolidate political power and national identity. Works in the exhibition locate the monumental in relation to longer cycles of construction, displacement and erasure; archaeology, geology and paleontology; the shifting politics of memory and ways to describe a history of place.

We look forward to welcoming you and your students to MUMA.

**Exhibition date:** 3 May – 5 July

**Location:** Ground Floor, Building F, Caulfield campus

For more information, visit monash.edu/muma or call 03 9905 4217

**MUMA is open:** Tuesday – Friday 10am – 5pm; Saturday 12 – 5pm

---

**Computer Games Boot Camp (CGBC) 2014**

This seven day event is for students in years 9 to 12, and gives them an opportunity to experience everything connected to computer games and information technology.

Students learn from experienced industry professionals, talk to like-minded individuals and can expand their networks by participating in workshops, tournaments, presentations and activities.

If your students are interested in multimedia, designing or playing games, or looking towards a career in IT, this event is for them!

**Date:** Saturday, 5 July – Friday, 11 July

**Location:** Clayton campus

For more information and to register, visit the website: cgbc.infotech.monash.edu

Igor Grubic, Monument (work in progress) 2014, video still.  

3D Oculus Rift device
**Medicine, Nursing and Health Sciences**

**Course updates**

**Bachelor of Physiotherapy (Honours)**

The UMAT and ISAT are not required for entry for 2015 and beyond for the Bachelor of Physiotherapy (Honours). Interview is still a requirement and will be offered based on applicants’ academic record. Interviews will be conducted in January 2015.

**Bachelor of Radiography and Medical Imaging (Honours)**

An interview has been introduced as an extra requirement for entry into the Bachelor of Radiography and Medical Imaging (Honours). Applicants will be invited to attend an interview in January based on their academic performance. Interviews will be held over 6 – 9 January, 2015 and will involve 4 MMI (Multiple Mini Interview) stations.

**Bachelor of Nursing (Community Health)**

The Berwick campus will no longer have an intake for the Bachelor of Nursing (Community Health) tag and will become the Bachelor of Nursing from 2015. Applicants should be aware that if looking for the Berwick course when applying through VTAC, that it will be listed under Monash University’s Bachelor of Nursing together with the Clayton and Peninsula campus programs.

**Direct Entry MBBS**

Monash University is the only Victorian university that offers Year 12 students who aspire to become a doctor the option of applying directly to the Bachelor of Medicine and Bachelor of Surgery (Honours) (MBBS) program from school.

The Direct Entry MBBS, offered at the Clayton campus, has 242 places for domestic students and a further 65 places for international students. Interviews for onshore international students will be held on 21 and 24 November 2014. Interviews for Victorian domestic applicants including IB students will be held from 6 to 9 January 2015.

Interviews for interstate and New Zealand applicants will be held on 28 and 29 January 2015.

**Graduate Entry MBBS**

From 2017, at least 50 of the 75 places available into the Graduate Entry MBBS, will be reserved for students who have completed the Monash University Bachelor of Biomedical Science. Generally, only students who start a first year undergraduate biomedical science degree at Monash University will be considered eligible for entry via the direct pathway into Graduate Entry Medicine at Monash University.

The remaining 25 places in this program will be open to students who have completed the following Monash University degrees:

- Bachelor of Biomedical Science (including double degrees)
- Bachelor of Pharmacy
- Bachelor of Physiotherapy
- Bachelor of Science (Dependent on the completion of designated units)

Applicants who have undertaken the above, clearly defined degrees will not be required to undertake the GAMSAT.

**Discontinued courses**

The following courses will not be offered from 2015:

- Bachelor of Nursing and Bachelor of Emergency Health (Peninsula campus). Students can alternatively study a Bachelor of Nursing followed by a Master of Emergency Health, OR a Bachelor of Emergency Health (Paramedic) followed by a Master of Nursing Practice.
- Bachelor of Health Science and Bachelor of Business (Caulfield campus).

For more information regarding any of the above, please see the flyer attached to the careers update email or visit monash.edu/study/options/schools/career.html to download the flyer.
